Blizzard Bag Day 2

Measuring in you home!

Supplies needed: ruler with inches and metric

If you do not have a ruler...ask a neighbor or go to <http://printable-ruler.net> and print one to use!

For each of the following measure **first** to the nearest 1/16 of an inch (example 2 and 2/16th inches)

Second measure each of the following to the nearest 10th of a centimeter (example 2.6cm)

Third convert your answer that you got in cm to m (example 2.6 cm = .026 m)

1. Length of a Kitchen Table or Counter

Inches: _____ cm: _____ m: _____

2. Width of a refrigerator

Inches: _____ cm: _____ m: _____

3. Kitchen Plate
